

Yash Srivastava

SENIOR SOFTWARE ENGINEER | MOBILE & FLUTTER | OTT, FINTECH, STOCK BROKING & AI

officialyash2616@gmail.com | +91 8604802120 | LinkedIn

SUMMARY

Senior Software Engineer with 6+ years of mobile-development experience building scalable, high-performance fintech, OTT, and AI products. Experienced in Flutter/Dart, BLoC and Provider state management, modular architecture, BDD-oriented test automation, Firebase/DataDog observability, release ownership, and AI-assisted workflows.

FLUTTER ENGINEERING

- **Mobile architecture:** Flutter, Dart, flutter_bloc, BLoC, Provider, Jetpack Compose, scalable app architecture, micro-frontends, reusable UI, and mobile/web delivery.
- **Product & growth:** Product ownership, user journeys, cohorts, conversion funnels, lead generation, activation, retention, and engagement.
- **Experimentation & analytics:** A/B testing, hypothesis design, funnel analysis, Firebase Analytics, Amplitude, AppsFlyer, user segmentation, and element-level interaction instrumentation.
- **Performance & experience:** Local caching, on-demand asset delivery, app-size optimization, API and startup optimization, lazy loading, media playback, FTUX, and large-screen experiences.
- **AI-assisted engineering:** Cursor, Claude, OpenAI APIs, Whisper AI, Linear/Figma workflow automation, and automated Flutter scaffolding.
- **Testing and QA:** Behaviour-driven test design, integration tests, golden tests, Patrol, BrowserStack, regression prevention, and testable code.
- **Code generation:** build_runner-based generation with Retrofit, Freezed and json_serializable for typed API clients, immutable models and serialization.
- **Platform & delivery:** Firebase, Crashlytics, Remote Config, DataDog, REST APIs, third-party SDKs, Git, and release management.

EXPERIENCE

MADE CARD — TEAM LEAD

Sep 2025 – Present · New York

Flutter · Firebase · BDD-oriented Tests · Golden & Integration Tests · Code Generation · Amplitude · Patrol

- **Product owner** for Mortgage Calculator and Subscription Cards—defining PRD, user journeys, cohorts, conversion funnels, and the lead-generation objective for third-party mortgage vendors.
- **Increased monthly average Subscription Card spend from ~\$90 to ~\$120 per active user** through 2–3 iterative A/B experiments across copy, user flows, and CTA placement.
- **Doubled user activation from 10% to ~20%** and generated **25–30 qualified partner leads each month** by iterating on the Mortgage Calculator’s form flow, CTA placement, and funnel copy.
- **Enabled data-driven product decisions and equipped management for third-party aggregator negotiations** by establishing a scalable mobile analytics framework for element-level clicks, views, engagement heatmaps, funnel tracking, and user segmentation.
- **Reduced app size from 160 MB to 65 MB (~60%)** through on-demand remote asset delivery and intelligent local caching, improving install accessibility and contributing to stronger organic app-store discoverability.
- Streamlined implementation by creating **AI-assisted workflows** with Cursor and Claude, automating Flutter scaffolding from Linear and Figma, and building a Slack-integrated admin portal.
- **Increased automated coverage of release-critical flows from 50% to 75%** by building BDD-oriented Flutter golden and integration tests for critical user journeys, preventing visual regressions and strengthening release confidence.

STAGE OTT — SENIOR SOFTWARE ENGINEER

Jun 2024 – Sep 2025 · Noida

Flutter · BLoC · Firebase · REST APIs · Integration Tests · BrowserStack · DataDog · Payments

- **Improved user engagement and increased DAU by 7%** across a platform with a **40M+ user base** by leading the mobile team building Shorts and Micro Drama experiences.
- **Made the STAGE TV app production-ready in under 2 weeks** by building it from scratch with AI agents and extending the platform to large screens.
- **Increased average monthly watch time from 5.5 to 6 hours** and improved **Month 1-to-Month 2 retention by 5%** through a year-long, independently led experimentation program across copy, first-time user experience (FTUX), and content-presentation approaches.
- **Cut boot-time requests by 50%, reduced server load 2.5×, and lowered costs by 22%** by removing duplicate API calls, optimizing data logic, and adding lazy loading.
- **Contributed to a 2% increase in TAM** by implementing UPI Collect and simplifying user transactions.
- **Delivered an 8% relative jump in media consumption** by building content filters, Watchlist, and Like/Dislike features.
- Improved integration **test coverage from 25% to 80%**, significantly increasing confidence in releases and reducing regression risk.

EXPERIENCE CONTINUED

SPYN INC. — SENIOR SOFTWARE ENGINEER

Sep 2023 – May 2024 · Redmond

Flutter · Flutter Web · Firebase · Backend services · Fitness-as-a-Service SDK

- **Boosted user engagement by 20%** by developing an AI-powered fitness trainer application using Flutter.
- **Streamlined workout workflows by 30%** by building a Flutter Web platform and backend services for a Fitness-as-a-Service SDK.
- **Integrated Whisper AI** to analyze trainer-client calls and text, surfacing real-time mood, training needs, conversion signals, and retention gaps for trainers.
- **Designed Flutter app-to-app handshake** protocol for secure client SDK integration, protecting backend APIs via a private inter-app communication layer.

ITRIBE — SOFTWARE ENGINEER

Jan 2022 – Sep 2023 · Bengaluru

Flutter · Datadog · Firebase · Stock market · Wallet & KYC · Payments · Clevertap · UXCam

- **Reached a user base of 1M+** by developing iTribe, a real-time news and stock market application.
- **Expanded the product experience** by leading the Flutter team building Flash News, Watchlist, Social Interaction, Live Stock Pricing, and two educational games with a micro-frontend architecture.
- **Supported a real-money gaming platform with 150K+ games played and a 45K+ user base** by building secure Wallet and KYC services for Funzo.
- **Drove 50K+ completions across 14 financial-literacy courses** by building an interactive, dynamic page-based module with a reusable course → lesson → page architecture.

INFOSYS LTD. — SPECIALIST PROGRAMMER

Aug 2021 – Jan 2022 · Bengaluru

Flutter · Provider · BLoC · Mobile & web applications

- **Delivered and maintained client mobile and web applications** using Flutter.
- **Shipped production features** using Provider and BLoC architectures.

ENGINEERING IMPACT

- **Growth & conversion:** Subscription Card average monthly spend per active user ~\$90 → ~\$120 (+33%); Mortgage activation 10% → ~20% (2×); 25–30 qualified mortgage leads/month.
- **Engagement & retention:** DAU +7% across a product with a 40M+ user base; media consumption +10%; average monthly watch time 5.5 → 6.0 hours (+9%); Month 1-to-Month 2 retention +5%.
- **Performance & efficiency:** Boot-time requests –50%; server load reduced 2.5×; operating cost –22%; app size 160 MB → 65 MB (–60%); test coverage 25% → 80%.
- **Delivery velocity:** STAGE TV app delivered from scratch to production in under 2 weeks; AI-powered fitness app user engagement +20%; workout workflows +30%.
- **Product scale:** 40M+ users on STAGE; 1M+ users for iTribe; 150K+ games played and 45K+ users for Funzo.
- **Quality automation:** BDD-oriented golden and integration testing raised coverage of release-critical mobile flows from 50% to 75%, reducing regression risk and strengthening release confidence.

TECHNICAL SKILLS

- **Flutter & architecture:** Flutter, Dart, flutter_bloc, BLoC, Provider, modular architecture, micro-frontends, Flutter Web
- **Testing:** BDD-oriented tests, Integration Tests, Flutter Golden Tests, Patrol, BrowserStack, TestMu AI (formerly LambdaTest)
- **Code generation:** build_runner, Retrofit, Freezed, json_serializable, Mason
- **Integration & release:** REST APIs, Firebase, Cloud Functions, third-party SDKs, Payments, Crashlytics, App Distribution
- **Observability:** Firebase Analytics, Amplitude, AppsFlyer, CleverTap, DataDog, UXCam, Sentry
- **Tools:** Git, Jira, Figma, Cursor, Claude
- **Database:** SQL, NoSQL, Firebase Firestore, Realtime Database

EDUCATION

PSIT Kanpur — Bachelor of Technology in Information Technology with Honors · CGPA: 8.32 / 10.0 2021 · Kanpur, UP
